Natasha is metro Atlanta's only principal designer with over twenty-five years of corporate experience as a fashion designer—expertly fusing fashion, form, and function—weaving custom wood elements into luxurious interiors. Marithé + François Girbaud, Pepe Jeans London and Ralph Lauren are some of the prominent firms where she excelled. Today, her clients still benefit from her corporate experience in fashion, which refined her artistry and honed her eye for detail, communication and project management skills.

The firm offers a full range of services, welcoming high-end residential design projects and discrete commercial design projects. Much of her work is for medical professionals and numerous repeat clients, including business executives, business owners and entrepreneurs. They value her expertise and professional integrity—Natasha's clients say things like... "It's such a wonderful feeling to love your home

so much that you want to be there all the time." "The project was done on time and on budget." "All of her contractors were professional." "She was professional, respectable and flexible with my schedule as a busy physician." "I was overwhelmed at the task of decorating, but Natasha made it very easy." Natasha is a graduate of the Fashion Institute of Technology. Over seven years ago, she transitioned into interior design while recovering from cancer and got a degree from The Art Institute of Pittsburgh. Natasha's designs are informed by her client's priorities as well as her fashion background and travel in Asia, Europe, Latin America and the Caribbean. One of her great strengths is listening to her clients and realizing their vision with her collaborative design process, transparent customer service and attention to detail. Work with Natasha and get your home to work for you—contact her for a 60-minute design consultation.
